

Looking after your Seed Potatoes; Onion and Shallot Sets and Garlic

Once you get them home you will need to follow some basic rules:

- Do NOT leave them in the paper bag
- Lay them out on a seed tray (onions; shallots and garlic) or in egg boxes (great for potatoes)
- put them somewhere **light and cool and dry** where the air can get round them
- Keep checking they are in good condition. Remove soft or damaged ones until you are ready to plant out
